

## The capacity possibilities for the GENTIAAN during Corona times

Due to the 1,5-meters distance policy, we have made a distinction between two capacity layouts;

*Optimal safety capacity* → This layout takes exit routes into account. Everyone can leave the hall at any time while maintaining to the 1,5-meters distance.

*Maximum capacity* → In this layout there are no exit routes. Participants are not able to leave the hall and maintaining the 1,5-meters distance. It is however possible to safely offer this layout with the following behavioural agreements:

- A toilet break or any other reason to take a break is only allowed during planned breaks.
- Entering and leaving the hall has to be a fixed procedure; when entering the hall, the window spots will be occupied first and from there the hall will be filled until the last spots at the entrance are occupied. When leaving the hall, this procedure will be followed in the opposite direction.
- Tip; Let the participants who need more sanitary breaks have a spot closer to the entrance.

Capacity overview of the group hall the Gentiaan

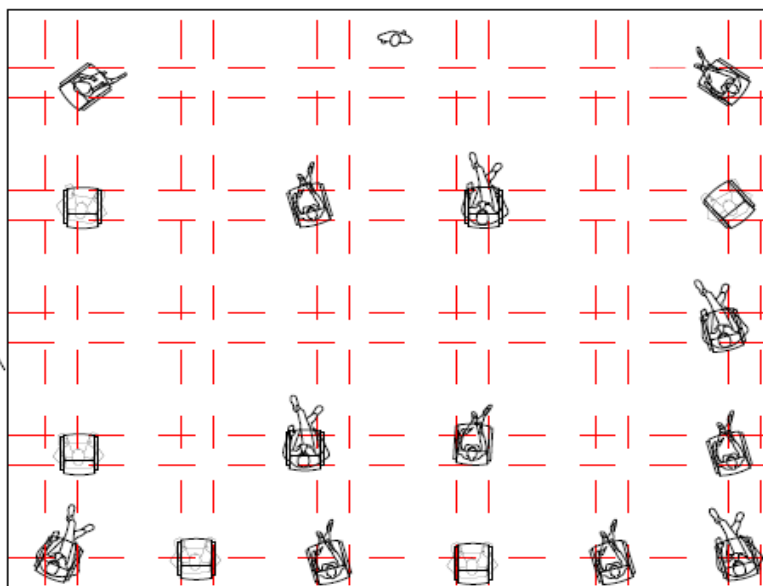

Lay out ↓	Capacity →	Optimal safety capacity*	Maximum capacity*	Pag nr
Theatre/lecture (chairs)		17	28	3
Meditation/Satsang (matrass + yoga pillow)		12	21	4
Meditation – oval (matrasses +yoga pillow)		12	19	5
Yoga/bodywork (yoga mats)		11	18	6
Massage/Tantra (matrass and 2 pillows)		20	32	7

\* Explanation can be found above the chart

On the next pages you can find a design and in some cases photos of the hall's layout with the optimal safety capacity and the maximum capacity.

**Theatre/lecture setup (chairs); Optimal safety layout**

**(17 participants)**

**Theatre/lecture setup (chairs); Maximum capacity layout**

**(28 participants)**

1,5-meters distance has been measured from armrest to armrest

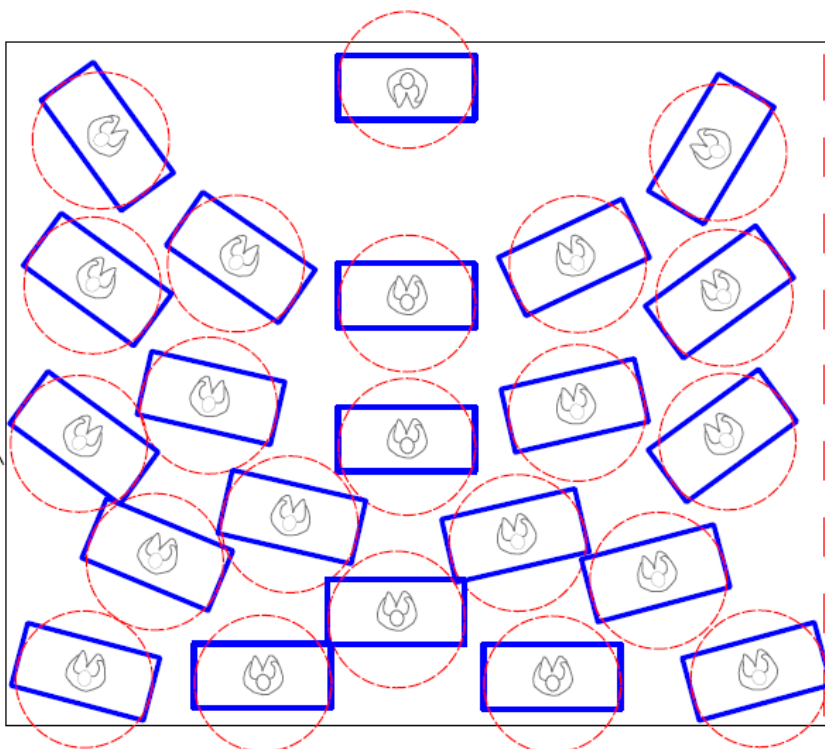

**Meditation/Satsang (matrass +yoga pillow); Optimal safety layout**

**(12 participants)**

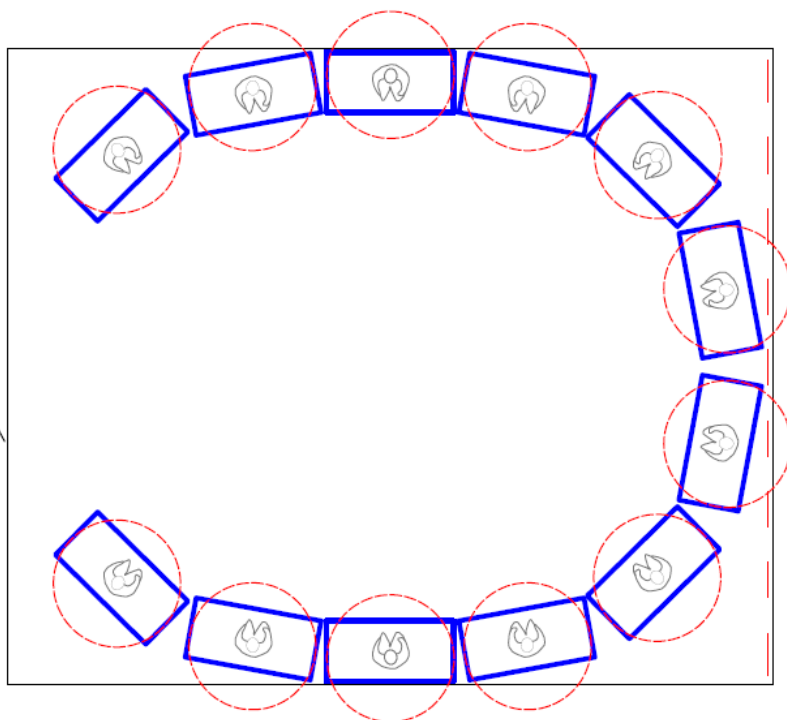

**Meditation/Satsang (matrass +yoga pillow); Maximum capacity layout**

**(21 participants)**

1,5 meters distance has been measured from shoulder to shoulder.

**Meditation - oval (matrass +yoga pillow); Optimal safety layout  
(12 participants)**

**Meditation - oval (matrass +yoga pillow); Maximum capacity layout  
(19 participants)**

1,5 meters distance has been measured from shoulder to shoulder.

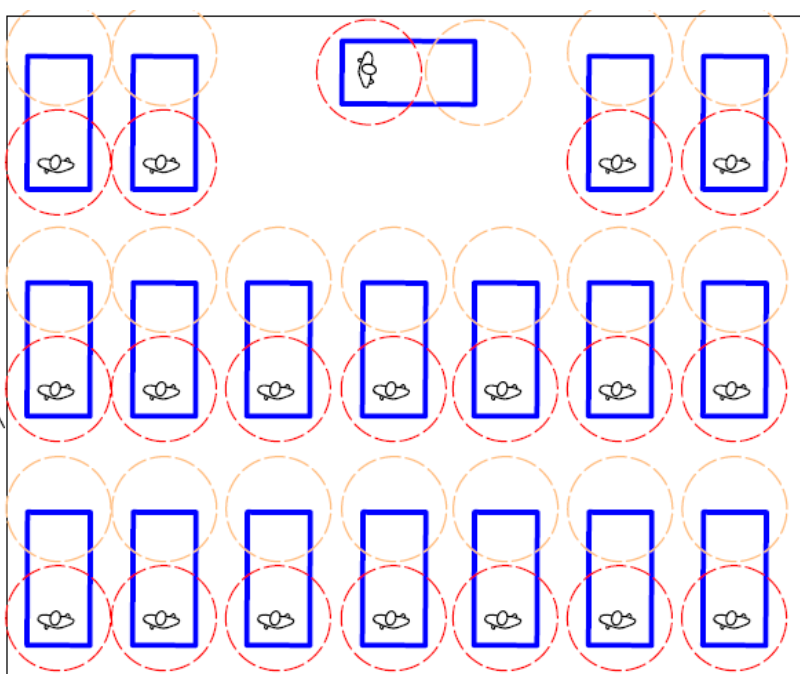

**Yoga/bodywork (yoga mats); Optimal safety layout**

**(11 participants)**

**Yoga/bodywork (yoga mats); Maximum capacity layout**

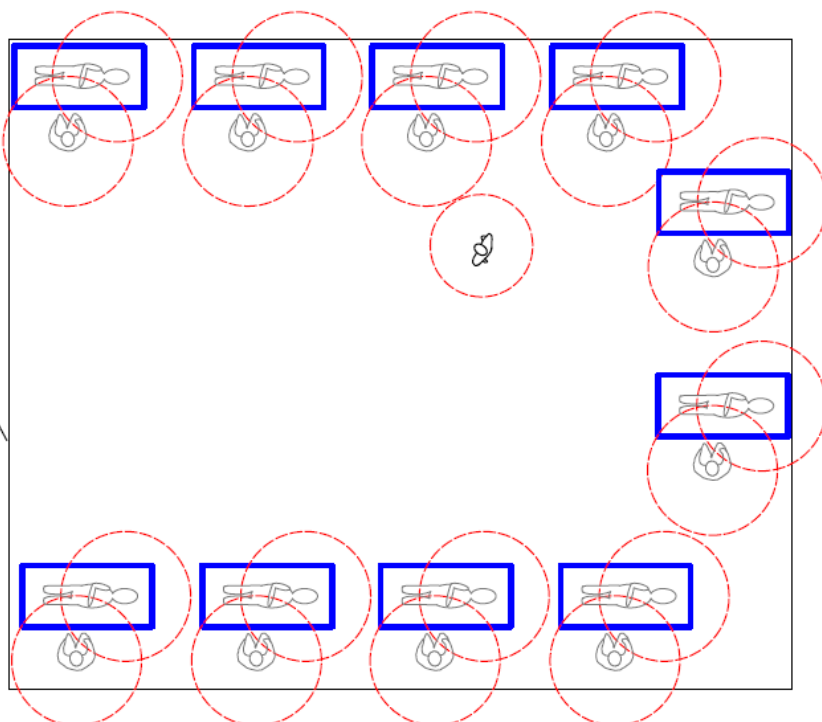

**(18 participants)**

1,5 meters distance has been measured from shoulder to shoulder.

This layout is also possible with yoga mats.

**Massage/tantra (matrass + two yoga pillows); Optimal safety layout  
(20 participants)**

**Massage/tantra (matrass + two yoga pillows); Maximum capacity layout  
(32 participants)**

In this layout the circles have a diameter of 2 meters.
